Summary

I have gained valuable experience through my theoretical and practical training at EON Reality, where I executed comprehensive programs in Augmented Reality (AR) and Virtual Reality (VR) technologies. Applying Agile Methodologies, I enhanced learning efficiency and contributed to innovative solutions in Unity, Blender, C++, and C#. Additionally, my role as an Application Developer at Administrative and Support Services Activities Settat involved providing outstanding customer support training, developing personalized client solutions using C# programming language expertise, and utilizing advanced technologies such as Entity Framework, Crystal Reports, and SQL Server 2012 for successful solution delivery. My educational background includes a Bachelor's in Design and Development of Applications from Université Hassan I-FST SETTAT and a Higher Technician Diploma in IT Development from Institut Spécialisé de Technologie Appliquée 2 Settat. I possess a diverse skill set encompassing Augmented Reality (AR) and Virtual Reality (VR), Agile Methodologies, Unity, Blender, C++ and C (Programming Language), 3D Modeling, C#, and Web Development.

Experience

Theoretical and practical training

EON Reality

Jan 2022 - Sep 2022 (9 months)

During my enriching journey at EON Reality from January 2022 to July 2022, I actively participated in both theoretical and practical training sessions. This immersive experience allowed me to explore the intricacies of Augmented Reality (AR) and Virtual Reality (VR) technologies, contributing to my in-depth understanding and proficiency in these cutting-edge fields.

Application Developer

Administrative and Support Services Activities Settat

Apr 2018 - Jul 2018 (4 months)

Provided positive customer support training experience for completed applications.

Developed and implemented personalized client solutions using C# programming language expertise

Utilized such technologies as Entity Framework, Crystal Reports and SQL Server 2012 to deliver a new solution

Education

1337 Coding School

Information Technology

Oct 2022 - Present

My ongoing experience at 1337 has been nothing short of revolutionary. Through its unconventional, peer-to-peer learning approach and emphasis on hands-on projects, I've cultivated practical coding skills, problem-solving abilities, and a deep understanding of cutting-edge technologies. The gamified

learning environment fosters continuous growth, empowering me to become a self-reliant learner in the ever-evolving tech landscape.

Université Hassan I-FST SETTAT
Professional Degree, DESIGN AND DEVELOPMENT OF APPLICATIONS
2018 - 2019
My academic journey at University Hassan-1er FST has been a transformative exploration in the field of Design Engineering and Application Development. Located in Settat, the university provided a rich environment for my professional development. Throughout my Bachelor's program, I delved into the intricacies of design and honed my skills in application development. The curriculum not only equipped me with theoretical knowledge but also offered hands-on experiences that proved invaluable in translating concepts into practical solutions. The university's commitment to excellence and innovation has been instrumental in shaping my foundation, preparing me for the challenges and opportunities in the dynamic field of technology.

Institut Spécialisé de Technologie Appliquée 2 Settat
Higher Technician Diploma, IT development
2016 - 2018
My journey at Institut Spécialisé de Technologie Appliquée 2 Settat equipped me with a Higher Technician Diploma in IT development, providing a solid foundation for my technical skills and understanding of information technology.
